

# MERCURY SD-20E

## 20" Single-Disk, Cord-Powered Autoscrubber

**MERCURY SD-20E is the 20" Wall-Plug Powered Walk-Behind Autoscrubber workhorse for scrubbing and cleaning.**

- Extremely maneuverable for scrubbing the tightest spaces
- Belt brush drive gives highest torque with lowest current draw
- Rugged design gives reliable durability.

Easy Fill

Easy Dump

Easy Brush Mount

Easy Squeegee Management

- 9 gallon solution tank is easy to fill with a wide, molded-in fill funnel. Gravity-feed solution flow rates are adjustable
- The clear dome makes solution monitoring fast and easy
- A 10 gallon recovery tank is easy to dump with a 1.5" flexible hose.
- Collect dirty scrub solution with a 750 Watt (1 HP) vacuum motor
- Scrub at 180 RPM with a 1200 Watt (1.6 HP) brush motor.
- Includes 20" nylon rotary scrub brush. (Order pad driver separately.) Rotary brush or pad driver is easy to mount. Just drive the machine over the brush and lower. Spin the brush motor to lock the brush in place. Drive away.
- Powered by a 25 foot cord that plugs into your 110V / 15 Amp wall mount.
- 30" wide squeegee assembly is fully adjustable. Manual lift for double scrubbing. Easy replacement when worn.
- Handle folds down for storage.

- Thick bumpers protect walls and baseboards.
- 1 year warranty on motors and pumps.
