

# MERCURY TD-13

## 13" Twin Directional Electric Autoscrubber

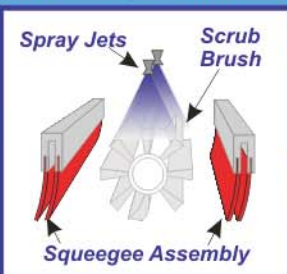

On/Off switches for vacuum, brushes and solution pump

Fold-down handle for easy transport and storage

20 foot power cord on easy-to-store hanger

Bladder style solution tank *inside* recovery tank gives twice the capacity in a compact machine

Squeegee assemblies *in front of and behind* the scrub brush lets you clean whether pushing or pulling the autoscrubber

Easy squeeze trigger gives solution flow on-demand

Clear solution dome for easy filling and solution monitoring

Spinning brush helps pull the autoscrubber in the forward direction for easier machine operation

13" long cylindrical brush gives fast, even scrubbing
